

Public Works Sanitation Cart Information/Guidelines -

Correct placement of your container for curbside trash, recycling, and organic waste collection is easy, but is also important to ensure your services are handled properly and safely.

We don't want to miss your collection, but we can't pick up your trash if it isn't by the curb when our truck arrives on your service day. This guide on container placement will ensure you're prepared:

Place your trash can and recycling bin at the curb with the wheels facing your house and the lid opening into the street. Trash must be bagged inside the can to prevent wind-blown litter during the collection process.

Keep your garbage cans three feet apart and at least four feet or more from any obstacles such as mailboxes, cars, light posts, or power lines.

Keep your container at the curb until the end of the day if it hasn't been collected.

Sometimes the timing of our arrival changes, and we don't want to miss you if we come later than expected.

It's generally best to put your container out **the night before your collection day**. That way even if we're early, you won't miss your pick-up. Our crews start their day at 5 am.

96 Gallon Replacement Cost -\$124.00 – 27" Wide 40" Deep 41" Tall – Will hold 9-12 standard kitchen bags depending on how tightly they are packed and the size of the bags. Suitable for a household of 4 or more people.

48 Gallon Replacement Cost - \$104.00 – 22" Wide 34 1/2" Deep 36 1/2" Tall – Will hold 5-6 standard kitchen bags depending on how tightly they are packed and the size of the bags. Suitable for a household that needs more trash space than a 32-gallon cart and finds the 96-gallon difficult to store.
